**RE: Submission to The Commission of Inquiry – Montara Well Head Platform  
Uncontrolled Hydrocarbon Release**

I strongly believe there should be no further expansion of the petroleum industry on the North-West shelf of Australia's Kimberley region until such time as:

1. A network of marine parks with large sanctuaries is established in the Kimberley region to serve as protection from events like the West Atlas oil spill (Term of Reference 10);
2. It can be shown that proposals for expansion of the North-West petroleum industry are fully compliant with binding national climate change policies and targets (Term of Reference 11);
3. Faster response time mechanisms and improved oil spill procedures are developed and adopted – with strong independent compliance enforcement. (Term of Reference 8)

I trust you to consider what is best for the environment over what commercial interests believe should be done. The bottom line is, if we destroy the environment – there will be no need for mining anything.

Yours Sincerely,

Sharon Apgar  
Concerned citizen
