**RE: Submission to The Commission of Inquiry – Montara Well Head Platform  
Uncontrolled Hydrocarbon Release**

I strongly believe there should be no further expansion of the petroleum industry on the North-West shelf of Australia's Kimberley region until such time as it can be shown that proposals for expansion of the North-West petroleum industry are fully compliant with binding national climate change policies and targets (Term of Reference 11). I also believe a network of marine parks with large sanctuaries should be established in the Kimberley region to serve as protection from events like the West Atlas oil spill (Term of Reference 10).

Yours Sincerely,

Dr. Anthony Hull
